PLANTS GHAR PVT LIMITED

Plants Ghar Pvt Limited is a rapidly growing marketplace established in Lahore, Pakistan with the mission of transforming the plant and gardening industry through technology. The company operates as a professional eCommerce platform where nurseries, gardening businesses, independent sellers, and customers can connect in one secure online marketplace. Plants Ghar provides a complete ecosystem for plant lovers by offering indoor plants, outdoor plants, decorative plants, gardening accessories, fertilizers, flower pots, seeds, landscaping materials, and other green lifestyle products.

The purpose of Plants Ghar is to make plant shopping easier for customers while giving sellers a professional platform to expand their businesses across Pakistan. The company focuses on quality products, customer trust, digital innovation, and environmental sustainability. Plants Ghar Pvt Limited aims to become the country’s leading plant marketplace by supporting both businesses and individual buyers through reliable services and modern eCommerce solutions.

VISION, MISSION & BUSINESS OBJECTIVES

Vision: To become Pakistan’s number one marketplace dedicated to plants, gardening products, and sustainable green living while encouraging people to create healthier environments through nature and eco-friendly products. Plants Ghar envisions building a future where every household and business has access to quality green products through a trusted online platform.

Mission: Our mission is to provide a professional business environment where plant sellers and nurseries can grow their businesses while customers can purchase quality products with confidence. Plants Ghar is committed to innovation, excellent customer service, trusted seller partnerships, and delivering value to every customer in Pakistan.

Business Objectives: Expand nationwide operations, partner with nurseries and agriculture businesses, create long-term seller opportunities, strengthen customer satisfaction, improve delivery systems, and establish Plants Ghar Pvt Limited as the leading brand in Pakistan’s online plant industry.

SELLER SYSTEM, BUYER PROCESS & FUTURE GROWTH

Seller Process: Businesses and independent sellers can join Plants Ghar by creating a seller account on the website. After registration, sellers submit their business details for approval and verification. Once approved, sellers can upload product images, descriptions, stock quantity, and pricing details. Their products become visible to customers on the marketplace where they can receive orders online and expand their sales network across Pakistan through a digital platform designed for business growth.

Buyer Process: Customers can visit the Plants Ghar website, browse available categories, compare products, select desired items, add products to cart, and complete the secure checkout process. After payment confirmation, orders are processed and delivered directly to the customer. Plants Ghar ensures a convenient shopping experience supported by quality products and reliable customer service.

Future Growth: Plants Ghar Pvt Limited plans to expand partnerships with nurseries, gardening suppliers, agriculture businesses, and eco-friendly brands throughout Pakistan. The company is committed to becoming the largest trusted online plant marketplace that supports sellers, satisfies buyers, and promotes a greener future for the country.
